SUMMARY

Frontend Developer with 2+ year of professional experience building scalable, high-performance web applications using React.js, Next.js, and JavaScript. Proven ability to deliver production-ready dashboards, data-driven applications, and high-traffic platforms. Strong experience in state management, API integration, performance optimization, and responsive UI design. Passionate about clean code, problem-solving, and business-impact-driven development.

PROFESSIONAL EXPERIENCE

Software Engineer

01 Aug 2024 – Present

Tailnode Technology

Haryana, India

- Developed and maintained frontend interfaces using **React.js and Next.js**, building dashboards and multi-page applications with clean, reusable components.
- Integrated frontend applications with **RESTful APIs** using **Node.js, Express, and Strapi**, ensuring efficient data flow and secure backend communication.
- Built data-driven features including charts, dashboards, file uploads, and PDF generation using **Redux and API integrations**.
- Delivered responsive, performance-optimized web applications while collaborating with senior developers on live projects in a fast-paced environment.
- Tech Stack: React.js, Next.js, JavaScript, TypeScript, Redux, Node.js, Express, REST APIs, HTML, CSS.

Frontend Developer Intern

19 Jan 2024 – 19 July 2024

Tailnode Technology

Haryana, India

- Utilized HTML, CSS, and JavaScript to create responsive and visually appealing web interfaces.
- Collaborated with senior developers to integrate RESTful APIs, ensuring seamless data exchange.
- Improving performance and load times by 50% to 90%, By transitioning site from plain HTML, CSS, and JavaScript to Next.js.
- Contributed to building and deploying multiple client websites with a team of developers.

PROJECTS

Ecommerce

[Hosted Link](#) | [Github](#)

Tech used: ReactJS, Redux, Strapi, SASS

- Built a responsive e-commerce platform with product browsing, selection, and cart features.
- Integrated Strapi backend for efficient data management and API communication.
- Implemented Stripe for secure online payments, ensuring a smooth shopping experience.

Movie Hunt

[Hosted Link](#) | [Github](#)

Tech used: Next.js, Tailwind CSS, TypeScript, Vercel.

- Developed a responsive platform to explore trending movies and TV shows.
- Add search and movie request features for enhanced user interaction.
- Integrated APIs for real-time movie data and dynamic content display.
- Optimized performance and deployed the application on Vercel.

SKILLS

Programming Languages: HTML/CSS, JavaScript, NodeJs.

Frameworks / Libraries: NextJS, ReactJS, Redux, Redux Toolkit, jQuery, Typescript, SASS, Bootstrap, MUI, TailwindCSS, ExpressJs.

Developer Tools / Technologies: VS Code, Postman, Git, GitHub, GitLab, Figma.

Soft Skills: Problem-solving, Adaptability, Time-Management.

CERTIFICATIONS

- [React](#) - Gained hands-on experience with React, Redux, and Redux Toolkit.
- [Back End](#) - Gained expertise in technologies like Node.js, Express, Mongoose, and APIs, etc.
- [Front End](#) - Acquired and applied technologies like HTML, CSS, JavaScript, Git, etc.

EDUCATION

Government Degree College, Kullu

BSC in Mathematics

Kullu, India

Aug 2019 – May 2022
